## Iron Round French Curtain Rod - 1-5/8" Dia

Product URL <https://signaturethings.com/1-58-round-rod>

**Short Description:** French Return Rods have two distinct characteristics. They don't use finials, and they return to the wall. This rod is designed to sit outside of the window frame. This is the best curtain rod for blackout curtains or room darkening curtains, a french rod that provides edge-to-edge coverage to reduce light, noise and drafts during the night. It is especially helpful for light sleepers or night shift workers.

The Round iron curtain rod is a simple and timeless style statement, with a variety of iron finishes, that will appeal to many. The curtain rod is constructed from iron which is highly durable and resilient.- Shown here in the Black finish- Available with ONAVERSE cord traverse system- Bracket required every 120" - All rods will be cut exactly to the length you specify. **Full Description:** What is a French Rod? French Return Rods have two distinct features. No finials are used, and they return to the wall. Adding these features reduce the space between the drapery panel and the end of the drapery rod, which is normally a light gap. This is the best curtain rod for blackout curtains or Room Darkening Curtains, a rod that provides edge-to-edge coverage to reduce light, noise and drafts during the night. It is especially helpful for light sleepers or night shift workers. Also Known as "French pole", the French used it as a way to highlight the fabric, especially in window dressings with tapestries. In their presentations the French preferred to focus on the fabric's design or artwork. **What's Included?** 1-5/8" Round Iron Curtain Rod **Features:** Iron Curtain Rod. Constructed from heavy duty iron materials. A brief period of installation is required, but you can quickly assemble the curtain rod. Bracket required every 120" Suitable for light to heavy weight curtains. This rod is designed to sit outside of the window frame, and it can be installed using the included hardware. **Products Details:** Materials: Metal Hardware Materials: Iron Dimensions and Sizes: All rods will be cut exactly to the length you specify.
